

Join a Committee...

Be an industry leader Here's your opportunity to rub shoulders with industry leaders...and to be one of them. By joining a NCPA committee, you'll help your industry and grow your own career in the process. A committee can be one of the most productive tools that an organization has in its structure. Effective committees unify, represent, motivate, coordinate, consolidate and communicate. Active committee involvement is what helps to make the North Carolina Press Association such a successful organization.
