

NEWSPAPERS IN EDUCATION PARTNERS

Reading the Newspaper with Your Kids

The newspaper is an inexpensive and educational way for you to read with your child. The newspaper has something for everyone—headlines, news articles, photographs, sports, entertainment and special features just for kids. Sit together with your child and familiarize your child with the newspaper. Talk about how a newspaper is organized and most easily read. Connect your child to their community through local stories. The newspaper is consumable! Write on it, cut it up – make learning fun! Make reading the newspaper with your child a habit. Reading is something they can carry through a lifetime. The Lou Pascaraella family enjoys reading **The Daily Post-Athenian** together in the evening.
